October 2009 Newsletter

Anniversary Sale & Open House

DaSilva Racing will be celebrating our 7th anniversary on Saturday, October 24th between 10 am and 3 pm so come out and have a good time with us! Take advantage of savings on big brand names, plus we'll pay both the PST & GST on most in stock items - *excluding some sale items. The guys from Classic Design Concepts will be here installing light bars on the spot! Display your car in our Show & Shine; we'll be taking pictures to add to our website. Make us an offer on some used parts that we'll have on display. Our dyno will be running, find out how much horse power your car is making with 2 dyno pulls for only \$50.00!

Modified Mustangs Cruise for Sick Kids

Our annual Thanksgiving Modified Mustangs Cruise for Sick Kids will be on Sunday, October 11. We're asking that participants donate \$10.00 towards the Sick Kids Foundation. This year, we'll cruise up North, much like last year's event. Everyone is more than welcome to join us, last year we had 155 cars! Please arrive at DaSilva Racing at 8am with a full tank of gas and ready for fun! If you have any questions please call us. The first 100 cars to arrive at our shop will receive a free t-shirt. What a great way to spend Thanksgiving Sunday!

Canadian Street Car Nationals

A huge thanks to everyone who came out to support the Canadian Street Car Nationals. I had a blast with one and all who attended and the weather was great. Thanks to the Maple Cruisers for the CSCN Show & Shine. We couldn't have asked for better.

DaSilva Lifts

DaSilva Lifts are the ideal solution to doubling your garage space. They are available in a variety of colors with a beautiful oven baked powder coat finish. 4 post lift is on sale now for \$3750 installed. Visit www.liftmycar.com for more information and specifications.

Winter Storage

There are still a few storage spaces available in Joe's personal secured and heated garage as well as a few at our shop; for information call us and speak with Joe. For those of you who are storing your Mustang at home, here are a few tips to winterize your car. The first and most important thing is to make sure that your antifreeze is strong enough for minus weather. Any of you who have intercoolers with pure water or race cars with water only in your cooling system, make sure to put antifreeze in or to drain completely dry. Secondly, make sure that your tank is full and top it off with stabilizer.

As far as starting your car through the winter, I recommend that you start it once a month, if that. Make sure when running your car to warm it up for approximately 1/2 hour until it reaches operating temperature. Some of you may want to invest in a trickle charger, especially the newer vehicles because even when the motor is off the battery is working running programs. If you decide to take the battery out of your car put it on top of a piece of wood. Feel free to call us for any more advice.

High Performance Parts & Service

Gallery Photos

We want pictures of your Mustang for our website! Send at least 3 or 4 photos to joe_dasilva@live.com. At the end of the year we'll have awards to give out for some of the chosen pictures. Have a look at our gallery, visit www.mustangtoystore.com.

Winter Projects

As much as some of us don't want to talk about it, winter is coming. Don't forget, as I've always preached in the past, take advantage of the slow time that we have in the middle of the winter for great deals on parts and labour. Also, at no charge during winter months, we will pick up and drop off your car in our enclosed trailer, up to 100 km radius. Your car will not see snow and even better; will be ready for next spring to enjoy every nice day instead of being in the shop. Visit us to talk about your stang!

Fall Sales

**Prices are for the month of October 2009 only and are subject to change without notice. Applicable taxes apply.*

Dyno time - 2 pulls for \$50.00. Purchase yours to use now or at a later date. Makes a great gift!
